CLOUD aw 0.5

CLOUD is a transparent **flame-retardant acoustic textile** designed to optimise room acoustics in modern interior environments. With a certified **sound absorption rating of aw 0.5**, the acoustic curtain combines reliable acoustic performance with a **nature-inspired design** aesthetic and a soft fall.

Key features:

- Transparent, flame-retardant acoustic curtain textile
- Sound absorption rating **aw 0.5**
- OEKO-TEX® Standard 100 certified
- Suitable for offices, hospitality environments, public spaces, and private rooms
- Combines acoustic performance with a natural aesthetic, with a soft fall
- Allows natural light transmission and spatial transparency
- Reduces reverberation and improves speech intelligibility
