**LOOP** aw 0.55

**LOOP** is a transparent, flame-retardant acoustic textile designed to improve room acoustics while preserving natural daylight. With a **sound absorption rating of aw 0.55**, it combines acoustic performance with a natural-inspired aesthetic. Its symmetrical design makes it ideal as a room divider curtain. Made from **60% recycled polyester bouclé yarn**, LOOP offers a sustainable and tactile approach to functional textiles.

**Key features:**

- Transparent, flame-retardant acoustic curtain textile
- Sound absorption rating **aw 0.55**
- 60% recycled polyester FR / OEKO-TEX® Standard 100 certified
- Suitable for offices, hospitality environments, public spaces, and private rooms
- Combines acoustic performance with a natural aesthetic
- Allows natural light transmission and spatial transparency
- symmetrical design ideal for a room divider
